Summary

Sagar Shrestha is a skilled Software Developer with expertise in PHP, Laravel, HTML, CSS, jQuery, Bootstrap, Ajax and JavaScript. He also possesses additional skillsets in Git, Bitbucket, GitLab, JIRA, Linux, and Figma. With experience as a Mid-level Backend Laravel Developer at Ktm Rush Pvt. Ltd., Sagar has successfully designed and built web applications using Laravel, troubleshooted implementation issues, and collaborated with front-end and back-end developers. He has a BSc (Hons) in Computing or Software Engineering from Herald College Kathmandu and has demonstrated his ability to maintain web-based applications and present work in meetings with clients and management. Sagar is seeking opportunities to leverage his skills and contribute to the development of innovative software solutions.

Work experience

Mid-level Backend Laravel Developer

2022-12-11 - current

Ktm Rush Pvt.Ltd

- Collaborate with clients and development teams to understand project aims and requirements, ensuring clear communication and alignment throughout the development process.
- Design and build robust web applications using the Laravel framework, implementing efficient and scalable solutions that meet client needs.
- Troubleshoot and debug implementation issues, ensuring smooth functionality and optimal performance of web applications.
- Work closely with front-end and back-end developers, fostering collaboration and synergy to deliver high-quality projects.
- Test functionality of web applications, both for users and the backend, ensuring a seamless and user-friendly experience.
- Ensure smooth integration of various components and systems, resolving any issues that may arise during the process.
- Scale projects based on client feedback, making necessary adjustments and improvements to meet evolving requirements.
- Maintain and update web-based applications, ensuring they are up-to-date, secure, and optimized for performance.
- Present work and project updates in meetings with clients and management, effectively communicating progress, challenges, and solutions.
- Record and report on work done in Laravel, maintaining accurate documentation and providing insights into project development and achievements.

Junior Backend Laravel Developer

2021-11-05 - 2022-12-00

Horizon International Pvt. Ltd.

- Developed service-oriented and e-commerce web applications using the Laravel framework, implementing Restful API and various algorithms with a focus on clean and high-quality code.
- Led and managed a development team, ensuring effective collaboration and timely delivery of projects.
- Communicated regularly with clients, understanding their requirements and providing updates on project progress.
- Implemented best practices and coding standards, resulting in an efficient and maintainable codebase.
- Conducted thorough testing and debugging, identifying and resolving issues to ensure optimal performance and user experience.
- Demonstrated strong leadership skills, effectively coordinating tasks and delegating responsibilities within the development team.
- Maintained clear and concise documentation, facilitating seamless knowledge transfer and ensuring continuity in development processes.
- Consistently delivered projects on time and within budget, exceeding client expectations and fostering long-term partnerships.
